8+ people: \$2,500

Kids staying in a room with their adult(s) receive 15% discount.

Single Supplement: \$600

Activities: Hiking, River Rafting, & Horseback Riding

Lodging in Pray & Gardiner

### Day 1

We meet you in Bozeman, Montana, and head through the Paradise Valley to where our horses will be saddled up and waiting for all us buckaroos to explore the foothills. After our ride, we check into Chico Hot Springs Resort. Adults enjoy a fancy dinner in Chico's fine-dining restaurant while our guides take your kids to the more casual Chico Grill and large outdoor pool, which is fed by natural hot springs. And if you want to soak in some hot water before bedtime, we heartily recommend it!

### Day 2

You'll have the opportunity to soak (or play in the pool) again or take a short but vigorous hike before we depart for Yellowstone National Park. As we head to the Mammoth Hot Springs area of the Park, we'll be on the lookout for bighorn sheep, bison, and elk. Once at Mammoth, we will learn how to become Junior Park Rangers, have some ice cream, and explore the cool travertine terraces. We'll then explore the thermal features at Norris Hot Springs before checking into the Canyon Lodge for the night.

### Day 3

We spend the better part of the day exploring the Upper Geyser Basin, including the famous Old Faithful geyser, catching sight of its regular eruption, and many other impressive geysers, hot springs, and fumaroles. Tonight, dinner is at the beautiful Lake Hotel.

### Day 4

This morning, we rise early to explore the Canyon area itself by foot before checking out of our lodge. The stunning Grand Canyon of the Yellowstone is nearly 20 miles long and has two impressive waterfalls that we can view up close from the brink! We then say goodbye to the Park before traveling up the Gallatin Valley to our home for the night at Buck's T-4, an iconic Big Sky lodge.

### Day 5

After breakfast, we'll head out for a fun and splashy river trip on the Gallatin River amongst the towering Douglas Firs, canyon rock walls, and snowcapped peaks. This is Class II/III whitewater, which means no experience is required and it is suitable for the entire family. We'll make the hour-long shuttle back to Bozeman after lunch, allowing you to take a late-afternoon flight home or extend your trip.
